Re: New Potomac Yard Arlington Civic Association

Dear Jackie,

On behalf of the leadership of Aurora Highlands Civic Association, we acknowledge that we have reviewed the proposed civic association boundary submitted by the Potomac Yard Arlington Civic Association (PYACA) and discussed it at our membership meeting on March 11, 2026.

After reviewing the proposed boundary map (attached), our association confirms that the proposed boundaries do not conflict with the existing boundaries of our civic association. Our association supports the proposed boundary and PYACA's application for recognition with the Arlington County Civic Federation.

We appreciate PYACA's outreach and coordination with neighboring associations during the boundary review process and believe the proposed boundaries appropriately reflect the communities they intend to represent.

Please feel free to contact us if additional confirmation or information is required.

Regards,
