|-------------------|--------------------------|--------------------------|---------------------------|---------------------|---------------------|
| Elementary School | 25                       | 11                       | 61                        | 2                   | 1                   |
| Open Space        | 20                       | 12                       | 52                        | 2                   | 1                   |
| Community Center  | 17                       | 14                       | 48                        | 2                   | 1                   |
| Green Ribbon      | 15                       | 17                       | 47                        | 2                   | 1                   |
| Libraries         | 10                       | 22                       | 42                        | 2                   | 1                   |
| Route 1           | 15                       | 10                       | 40                        | 2                   | 1                   |
| Underground       | 12                       | 14                       | 38                        | 2                   | 1                   |

Analysis:

38 people voted, each selected 3 first choices and 3 second choices

There are a few ways to look at this, and they each come out about the same way

A. Consider 1st tier selections first, then second tier

The top three 1st tier choices are Elementary School, Open Space and Community Center

There is a tie for 4th place between Green Ribbon and Route 1.

As a tie-breaker, we look at the 2nd tier votes, which show Green Ribbon has more 2nd tier votes (17) than Route 1 (10)

So Green Ribbon gets the 4th place

B. Weight the choices by the number of rankings - we asked for 1-2 ranking, so we weight the scores 2-1 (a first place vote counts 2x a second place vote)

This gives a single ranking: Elementary School, Open Space, Community Center, Green Ribbon, Libraries, Route 1, and Underground

In either case, we get the same answers if we are content to go with unranked tier 1 and tier 2 groupings:

Tier1: Elementary School, Open Space, Community Center, Green Ribbon

Tier 2: Libraries, Route 1 and Underground
